TRAVEL PROGRAMME

Day 1- Arrival and accommodation in 4-star hotel in reserved rooms. Afternoon dedicated to a view of the 167-metre-high **Mole Antonelliana**, symbol of the city and home to the **Cinema Museum** (admission included with the Card). One of the most exciting exhibitions of cinema: against a backdrop of sets, projections and plays of light, the visiting routes create a spectacular presentation that immerses us in the magic of cinema. You can discover first-hand the secrets hidden behind the camera and the stages leading up to the projection of a film in a fantastic and interactive itinerary, from shadow theatre and the first fascinating magic lanterns to the most spectacular special effects of today and virtual reality. It will then be possible to go up the panoramic lift (optional and not included in the Card), which still takes you up to a height of 85 metres to admire the extraordinary view of the city and the Alps surrounding the Mole. In the evening, **dinner in a typical restaurant** to taste Piedmontese delicacies. Return to the hotel and overnight stay.

Day 2 - Breakfast at the hotel. Morning dedicated to a visit to the **Egyptian Museum** (included in the Card), the oldest in the world dedicated entirely to Egyptian culture. It will be fascinating to discover the fundamental stages of its formation, from the birth of the collection to the present day, also through an itinerary dedicated to children. Afternoon at leisure to visit the streets of the city centre amidst Baroque palaces, stroll through the gardens of the **Royal Palace**, or taste a typical bicerin or hot chocolate, maybe served with cream and small pastries, in one of Turin's historic and elegant cafés.

Day 3 - Breakfast at the hotel and departure for a day dedicated to Turin's Olympic mountains. It is just a few steps to the railway station from where the train that will take us to spend our Snow Experience in **Bardonecchia** departs.

Day 4 - Breakfast at the hotel. Another stroll through the streets of the city centre where we recommend a tasting of the typical praline at one of the laboratories of the Gianduotto chocolate makers and, to follow, a tasting in a historic venue in the centre to sample and perhaps take home our traditional Vermouth.
